CUACRL Digital Initiatives Task Force  
FY2017 Work Plan Objectives  
Quarterly Progress Report  

Report Date: Friday, January 12, 2018  
Task Group: CUACRL Digital Initiatives Task Force  
Prepared by: Amy Allen and Martha Parker  

OBJECTIVE TITLE  
Fourth quarterly report to CUACRL’s directors from CUACRL-DITF  

ACTIVITIES  
The group worked during the fourth quarter on research to implement target activity number four:  
Explore the prospect of a statewide institutional repository.  

ACCOMPLISHMENTS 2nd QUARTER  
Research for the statewide institutional repository prospect has been fruitful. The group will be able to share our recommendations with the CUACRL’s directors during the next quarterly progress report.  

NEXT STEPS  
The task force is planning on researching target activity number five as our next step: Explore the possibilities for system-wide access to data repositories, providing search capabilities across collections.  

Last, the group respectfully request the board’s recommendation on two items covered during the third quarterly report. The first item was to advise if this task force should begin work on a joint digitization project or simply identify possible joint digitization projects, knowing that, due to the subject matter, a joint project will not involve every campus. The second item was to advise on how to proceed with goal number 2: Implement a scanning program, with materials to be scanned in support of faculty programs. Is there a desired outcome for this goal?
